ABSTRACT

BELLEZZA BEAUTY SERVICES

Bellezza is revolutionizing the beauty industry by delivering premium, personalized services directly to clients' homes. Connecting customers with skilled beauty professionals, Bellezza offers a range of customized services, including haircuts, hairstyling, facials, makeup, pedicures, and more, tailored to individual preferences.

With a user-friendly app and website, customers can create detailed beauty profiles, book services based on real-time availability, and access location-based features. Virtual consultations allow users to interact with experts before booking, ensuring well-informed decisions.

Powered by advanced technology and a feedback-driven algorithm, Bellezza emphasizes quality, convenience, and personalization empowering clients to feel confident and cared for anytime, anywhere.

Admin Features

1. **Dashboard**: Track metrics (users, bookings, revenue), quick access to management tools.
2. **User Management**:
   - Clients: Manage profiles, service history, and feedback.
   - Professionals: Approve/reject profiles, assign services, monitor performance.
3. **Service Management**: Add, update, or remove services; create bundles; enable dynamic pricing.
4. **Appointment Management**: Handle bookings, reschedules, disputes, and refunds.
5. **Payments**: Track revenue, manage payouts, and set commissions.
6. **Feedback**: Monitor reviews, address complaints, and refine services.
7. **Consultations**: Oversee virtual consultations and assist with issues.
8. **Support**: Manage tickets and offer real-time assistance.
9. **Content & Notifications**: Update app content, send notifications, and promotions.
10. **Marketing**: Launch discounts, campaigns, and loyalty programs.

User Features

A. Clients
